

Eight Point Wind Energy Center

About Eight Point Wind Energy Center

- Located in two towns in Steuben County, N.Y. on land leased from owners
- 101.8 MW operating capacity
- 31 wind turbines
- Expected to generate enough clean electricity to power 43,000 homes
- Operated by a subsidiary of NextEra Energy Resources
- Facilities will include wind turbines, access roads, buried and overhead electric collection lines, a project collection substation, meteorological towers, an operation and maintenance building, and electrical interconnection facilities.

Local Benefits

Eight Point Wind is expected to deliver new jobs, taxes and economic development to Steuben County and the towns of Greenwood and West Union.

These Benefits include:

- Once operational, the project is estimated to provide **\$40 million in revenue** to local governments to support schools, infrastructure and vital services such as fire departments.
- Payments to landowners are estimated to be **\$25 million** over the 30-year expected life of the project.
- New construction jobs, which will be sourced, where possible, from the Steuben County and the Southern Tier labor market.
- Local construction jobs will include those in the construction trades, including equipment operators, truck drivers, laborers, and electricians.
- NextEra Energy Resources encourages local hiring to the greatest extent possible.
- Specialized workers from outside the area will add to the regional economy by staying in area hotels, eating in the local restaurants and shopping in Steuben County stores.
