Exhibit 14: Cost of Facilities 1
14(a) Total Capital Costs 1
14(b) Source of Capital Cost Estimates..... 1
14(c) Work Papers 1

Appendices

Appendix 14-1. Estimated Cost of Facilities

Exhibit 14: Cost of Facilities

14(a) Total Capital Costs

A detailed estimate of the total capital costs of the proposed Project, including costs associated with development and permitting, wind turbines, the balance of Project equipment and engineering, and other costs necessary for interconnecting the Project to the New York grid is included as Appendix 14-1. This information is proprietary, therefore, the Applicant will seek the requisite trade secret protection for this information pursuant to POL Section 87(2) (d) and 16 NYCRR § 6-1.3.

A cost estimate will be provided for the 115 kV transmission line separately through the Article VII proceeding, if required.

14(b) Source of Capital Cost Estimates

The cost estimates provided in Appendix 14-1 are based on NextEra's experience in developing and constructing wind energy projects in the United States and estimated prices from vendors associated with the various wind energy project components, all in current dollars.

14(c) Work Papers

Upon the demand of any party or of the Department of Public Service (DPS), the Applicant shall supply the work papers from which the estimates required by subdivision (a) of this stipulation were made, provided that demand is made in the form of a written request. However, this information is proprietary and typically retained as trade secret. Therefore, the Applicant will seek the requisite trade secret protection for this information pursuant to POL Section 87(2)(d), 16 NYCRR § 6-1.3, other applicable law, and/or a protective order as necessary.
